

## NO SCRIBBLING

Please don't take a pic and blur out someone else in it. Take a new pic!

## CUTTING

It's also not okay to crop out someone else. It's obvious and silly looking. Take a new pic!

## YOUR BEST PROFILE

**Tips for maximizing your possibility of connecting.**

## NO SHIRT, NO SHOES, NO MATCH

You might look great with your shirt off. You think you're impressing people... but nope! It feels a little desperate. Please, put a shirt on. We'll ask for a shirtless pic if we're interested.

## SUNGLASSES OFF

They say your eyes are the window to your soul. A potential partner needs to see your eyes in your picture. It's so important for the connection! You might look super cool in your shades, but you need to ditch them for your profile pictures.

## SMILE

Show your pearly whites! But more than that, show them your personality.

## NO BLURRY PICS

Dirty lens or shaky hand - no thanks! Take another pic. You can do it!

## BE ORIGINAL AND GENUINE

When you find someone, reach out and make an authentic connection. Don't have a "canned" message that you send to everyone. Take an interest in something they've said and PLEASE don't have it be about their looks.

## NO SPELLING MISTAKES

Have a friend proof your profile if spelling isn't your forte. Bad grammar is a no-no!
